"Teapot" AT+T Truevision Award Winner

# INNOVATION: *Video to Print*

A clear trend in the graphic design profession is the merging of video and print technologies. Plan to join us April 27th at 7 p.m. when the Arizona Chapter of the National Computer Graphics Association presents "Innovation: *Video to Print.*"

The event features Academy Award winner Shelley Lake, who will discuss her leading edge animation work in Hollywood. A three-time Clio Award winner, Shelley's work has been seen by millions. To round out the evening, Graphic Trust, a Scottsdale design firm, will demonstrate how to create a full color, print resolution page from one of Shelley's computer-generated images. *If you're responsible for equipment purchases or manage a graphic design facility, you won't want to miss this informative presentation.*

Admission is \$8.00 for NCGA members and \$15.00 for nonmembers. Present this invitation to receive a 20 percent discount for you and three of your associates. The event will be held at the Hilton Pavilion, 1011 West Holmes Avenue in Mesa (South Alma School and the Superstition Freeway.) For more information call Frank Harrison at 233-8635.

**NCGA ... bringing you the best in 1989!**
