Gensler and Associates/Architects believes that as architects and designers of contemporary environments, we must set an example for our clients and fellow professionals in the use of art as part of the design vocabulary.

Towards that goal we have regularly scheduled art exhibitions in our office.

This, our 41st exhibit, features the work of contemporary artists. We would like to thank our guest curator Sylvia Haimoff White, of Contemporary Artists' Services 9520 Jefferson, Culver City, Ca. 90232 (213) 559 8303.
